PHDE040102

CLAIMS:

20

25

- 1. Lighting device comprising a lamp (1) comprising a burner (10) with an ionizable filling and an amount of mercury contained therein, having at least one mercury absorbing/adsorbing and/or blocking means (40;70) located outside the burner (10) for the fixation of mercury in case of an explosion of the burner (10).
- Lighting device according to claim 1, comprising a mercury blocking means.
- 3. Lighting device according to claim 1 or 2, wherein the mercury blocking means is a filter means.
 - 4. Lighting device according to any of the claims 1 to 3, wherein the mercury blocking means is a filter comprising glass fibres, preferably a HEPA-filter.
- 15 5. Lighting device according to any of the claims 1 to 4, comprising a mercury absorbing/adsorbing means.
 - 6. Lighting device according to any of the claims 1 to 5, wherein the mercury absorbing/adsorbing means is chosen from a group selected from active carbon, aluminum oxide, zeolithes, almal gam forming compounds, monolithic catalysts and mixtures thereof.
 - 7. Lighting device according to any of the claims 1 to 6, wherein the at least one mercury absorbing/adsorbing and/or blocking means is capable of fixing ≥20% of the mercury contained in the burner.
 - 8. Lighting device according to any of the claims 1 to 7, wherein the at least

PCT/IB2004/051823

PHDE040102

one mercury absorbing/adsorbing and/or blocking means is capable of fixing the mercury contained in the burner in ≤ 2 seconds, more preferably ≤ 1 second, yet more preferably ≤ 0.5 seconds and most preferred between ≥ 0 and ≤ 0.05 seconds.

- 5 9. Lighting device according to any of the claims 1 to 8, wherein the at least one mercury absorbing/adsorbing and/or blocking means comprises a mercury absorbing/adsorbing means and a mercury blocking means, which are provided in such a way that mercury that will leave the burner after an explosion of the lamp will pass both the mercury absorbing/adsorbing means and the mercury blocking means before leaving the lighting device.
 - 10. A system comprising a lighting device according to one of the claims 1 to 9, the system being a
 - shop lighting system and/or,
- 15 home lighting system and/or,
 - head lamp system and/or
 - accent lighting system and/or,
 - spot lighting system and/or,
 - theater lighting system and/or,
- 20 consumer TV application system and/or,
 - fiber-optics application system, and/or
 - image projection system.
